Use tabs at top to navigate data pages

- Top of welcome page has three helpful links for more information on analysis of data, data definitions and how to download the data.
- Tab 1.1/1.3/1.4 load quickly
- Tab 1.2 will take about 20-30 seconds to load depending on a few technical factors.

Data are for first time incoming high school students from the selected district/school/all chosen on the welcome page.

Tab 1.1 is headcount, enrollment, demographics, basic skills, financial aid and ed goal. Best takeaway from this page is the rise in first time incoming high school students, rise in % received financial aid and decline in % taking a basic skills course.

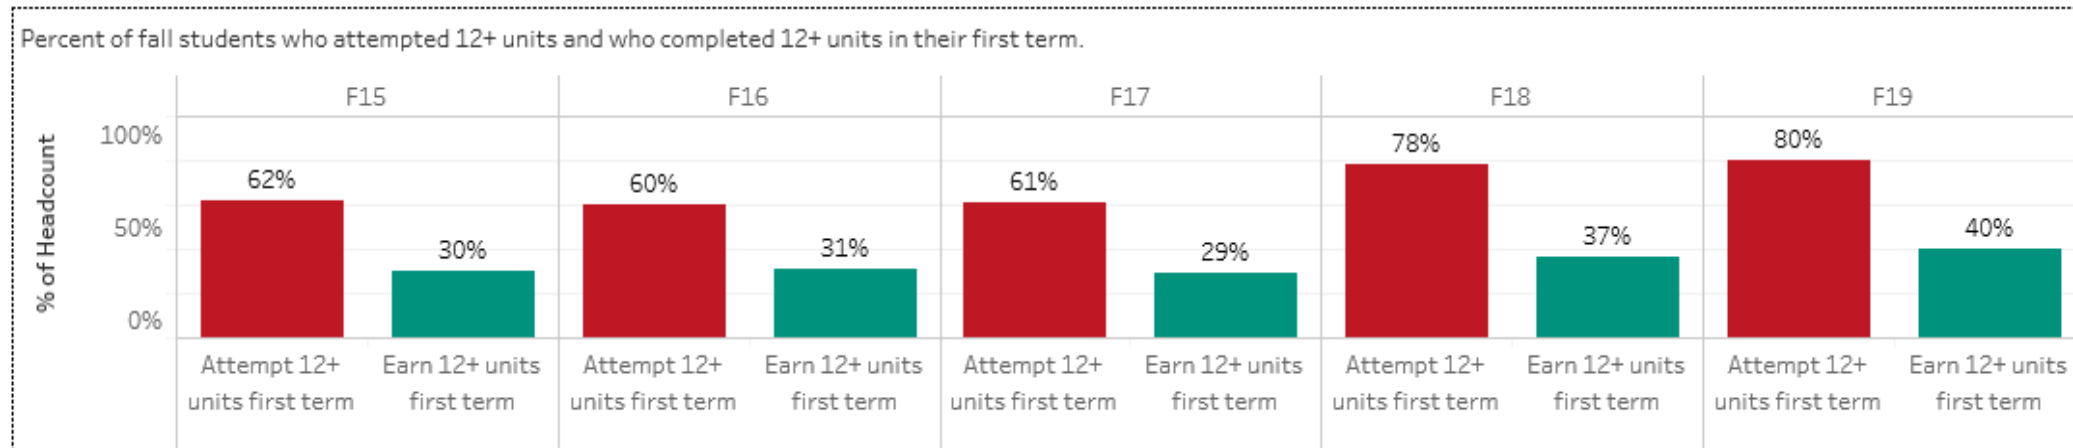

Tab 1.2 includes units attempt/earn in first term and first academic year, first term GPA, retention/success, fall to spring persistence and % of students who were prior special admit at AHC.

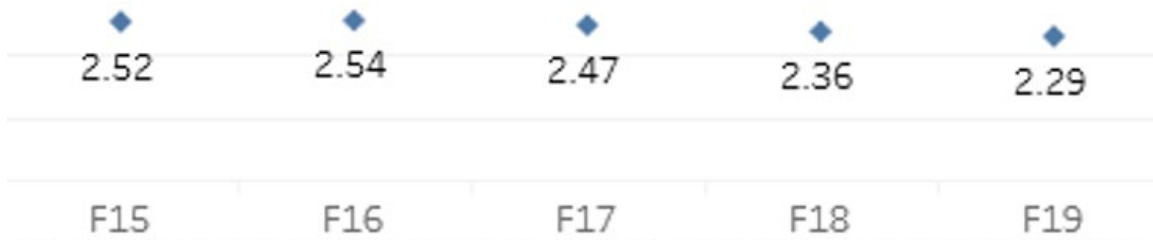

1.2 First Term Outcomes

Retention=% of courses students are enrolled at end of a term. Success=% of courses students received a grade of 'C' or better.

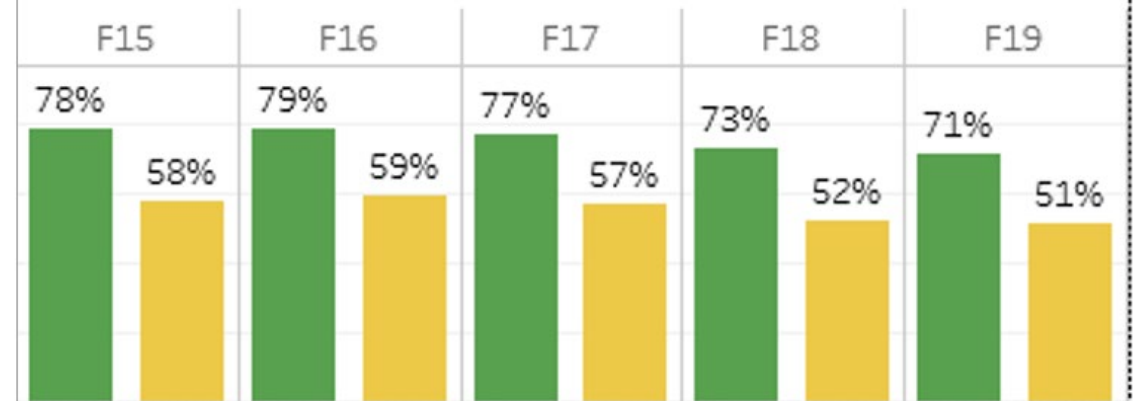

Fall to spring persistence (F2S)=% of students enrolled fall term that enrolled in subsequent spring term.

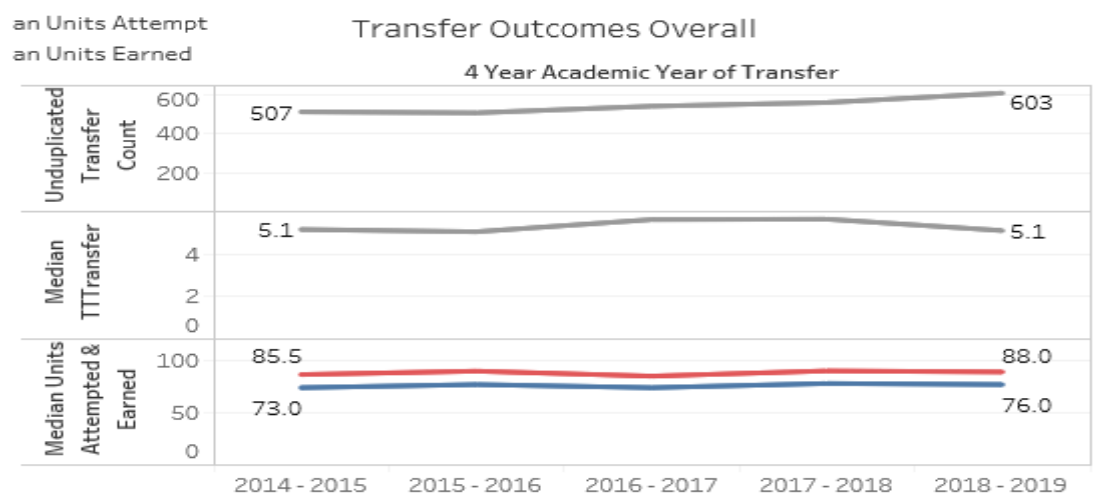

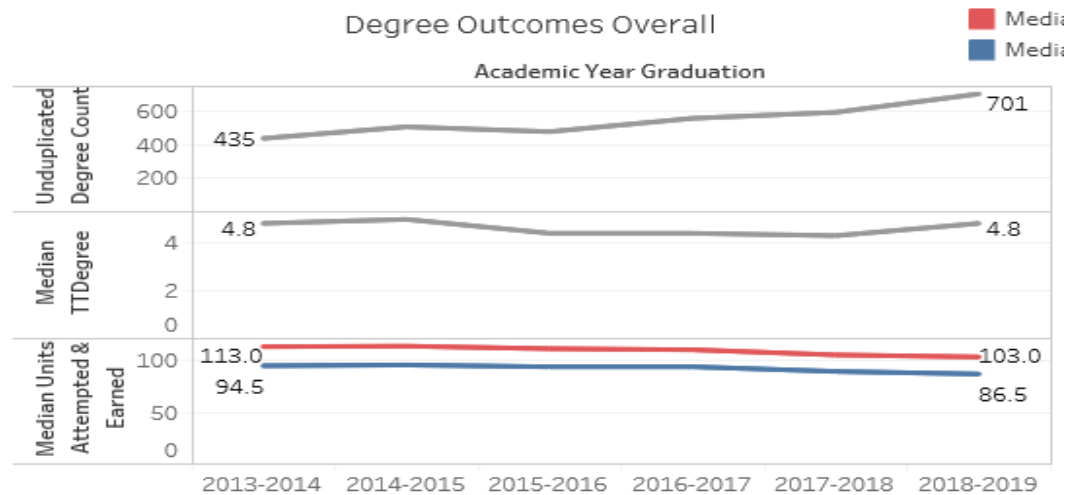

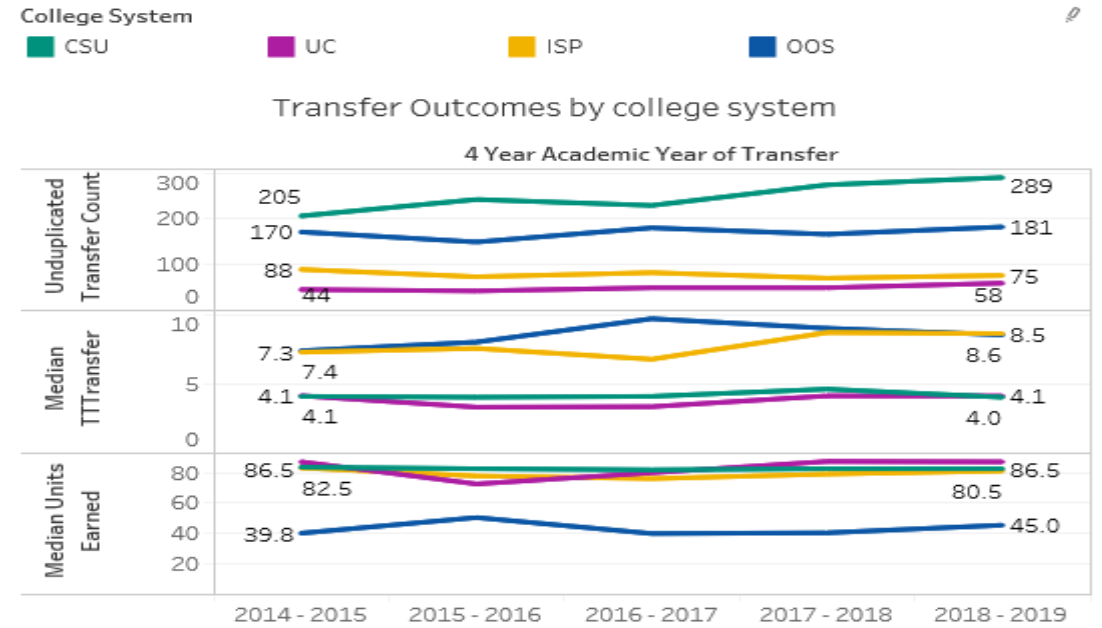

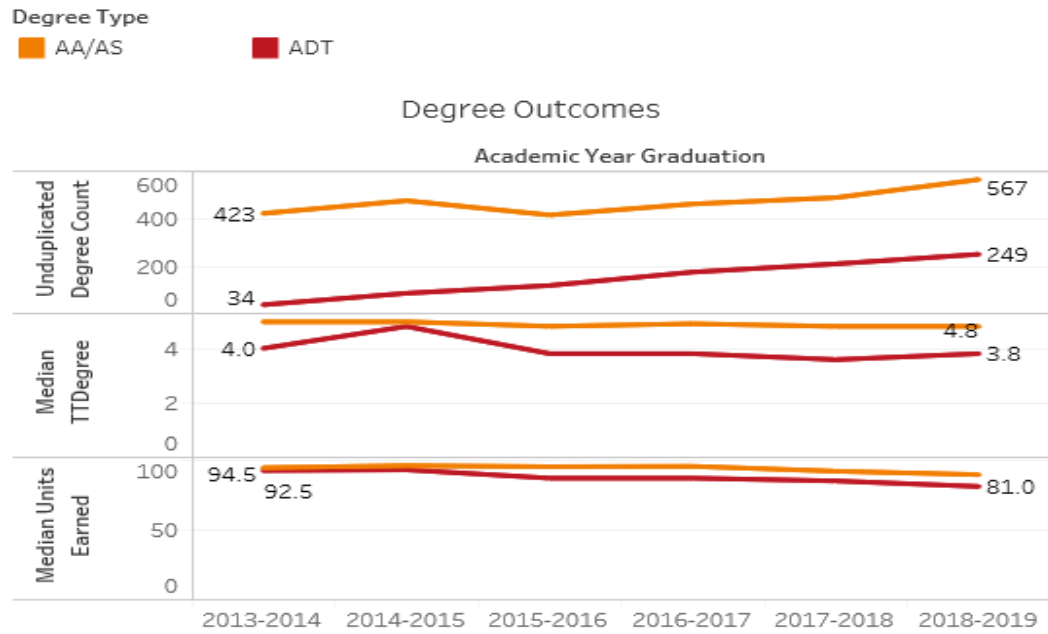

Average GPA

Retention (Green) & Success (Yellow) %

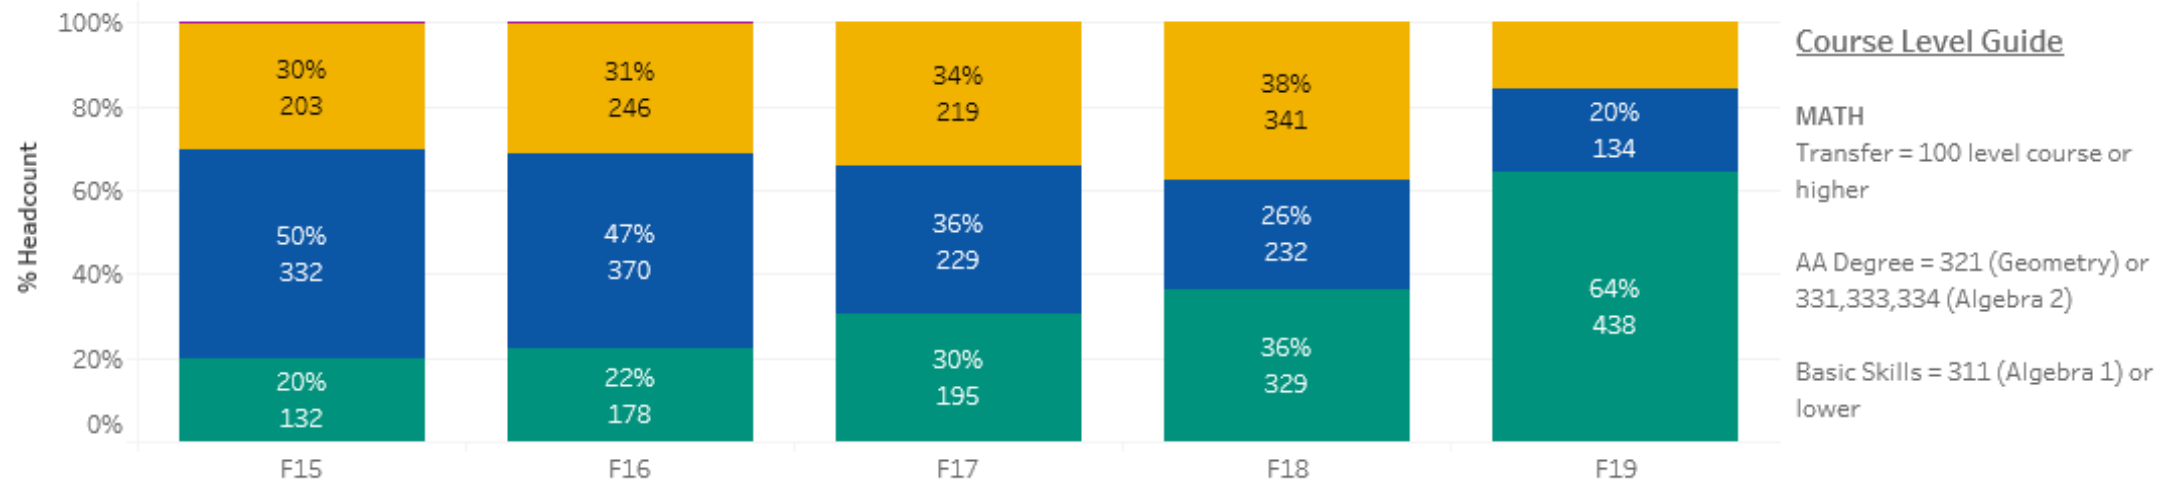

Tab 1.4 is time/units to earn a degree and time/units to transfer to a 4 year school

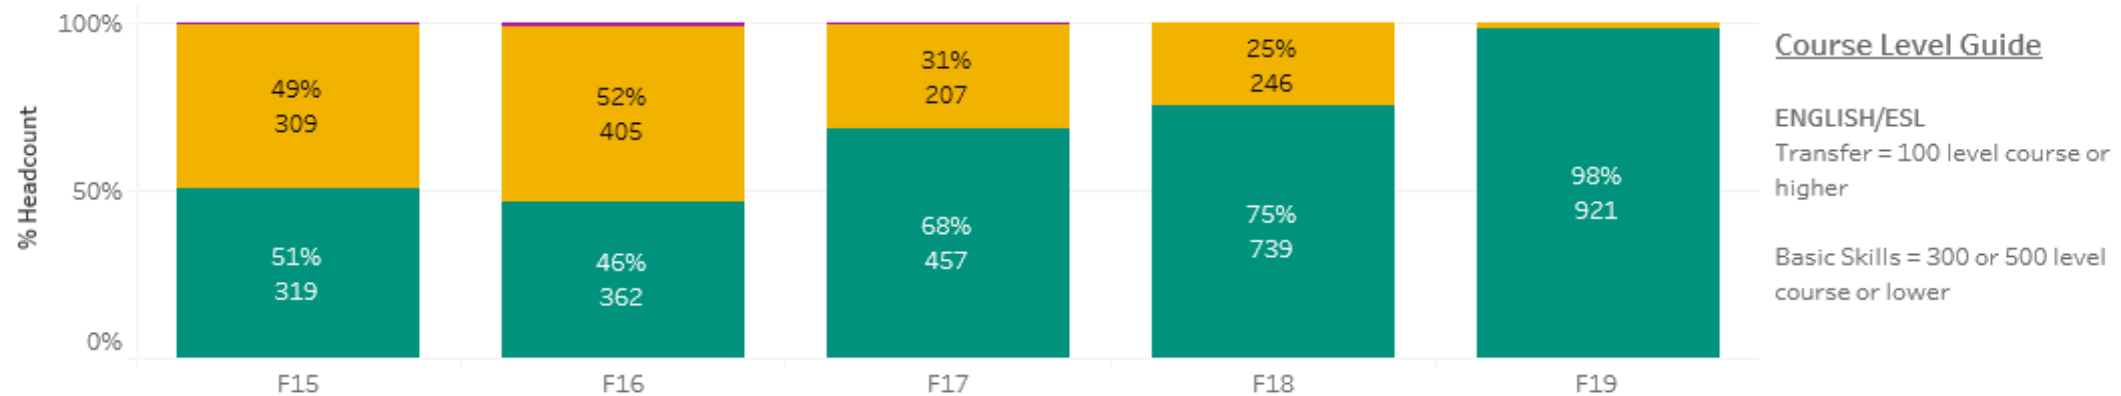

Tab 1.3 level of math and English courses students take in their first term

First Term Math Enrollment

First Term English/ESL Enrollment

“

We have a disadvantage because our parents usually don't speak English...honestly, we can't go to our parents for help...
