## Columns Explained

---

### Assessment/Placement

**Column 1 - Total Assessed/Placed:** Cohort of students assessed/placed should include assessment/placement results for first-time students with a credit enrollment in any course, summer 2019 through spring 2020 -- not just English, math, or ESL courses.

**Column 2 - Number of Students Assessed/Placed into Transfer-Level Course without Concurrent Support:** These columns show the number of distinct students out of the total assessed/placed (Column 1) in the academic year who were assessed/placed into a transfer-level or degree-applicable course without concurrent support.

**Column 3 - % of Students Assessed/Placed into Transfer-Level Course without Concurrent Support:** Divides Column 2 by Column 1.

**Column 4 - Number of Students Assessed/Placed into Transfer-Level Course with Recommended or Required Concurrent Support:** These columns show the number of distinct students out of the total assessed/placed (Column 1) in the academic year who were assessed/placed into a transfer-level or degree-applicable course with recommended or required concurrent support. Include all types of concurrent support. The college can define what encompasses concurrent support, but examples may include: corequisite support courses, additional course units, lab units, credit or noncredit units, supplemental learning activities, recommended or required tutoring including embedded tutoring or supplemental instruction.

**Column 5 - % of Students Assessed/Placed into Transfer-Level Course with Recommended or Required Concurrent Support:** Divides Column 4 by Column 1.

### Enrollment

**Column 1 - Total Enrolled:** The cohort for student enrollments shall include first credit enrollment for all first-time students enrolled summer 2019 through spring 2020, including intersessions. Include first enrollment regardless of where the student was assessed/placed. For example, if a student was assessed/placed in transfer-level English and enrolled in pre-transfer-level English coursework, the pre-transfer level enrollment would be reported here. These columns shall include the number of distinct students enrolled at census regardless of their educational goal. If end-of-term data are used, include withdraws (EW, MW, and W grades) as enrollment in the course.

**Column 2 - Number of Students Enrolled into Transfer-Level Course without Concurrent Support:** These columns show the number of distinct students out of the total enrolled (Column 1) in the academic year who were enrolled in a transfer-level or degree-applicable course without concurrent support. Report enrollment in the gateway transfer-level course when reporting transfer-level enrollment (e.g. English Composition).

**Column 3 - % of Students Enrolled into Transfer-Level Course without Concurrent Support:** Divides Column 2 by Column 1.

**Column 4 - Number of Students Enrolled into Transfer-Level Course with Recommended or Required Concurrent Support:** These columns show the number of distinct students out of the total enrolled (Column 1) in the academic year who were enrolled in a transfer-level or degree-applicable course with recommended or required concurrent support. Include all types of concurrent support. The college can define what encompasses concurrent support, but examples may include: corequisite support courses, additional course units, lab units, credit or noncredit units, supplemental learning activities, recommended or required tutoring including embedded tutoring or supplemental instruction.

**Column 5 - % of Students Enrolled into Transfer-Level Course with Recommended or Required Concurrent Support:** Divides Column 4 by Column 1.

**Column 6 - Number of Students Assessed/Placed into Pre-Transfer-Level Course or Multi-Term Sequence:** This column shows the number of distinct students out of the total assessed/placed (Column 1) in the academic year who were assessed/placed into a pre-transfer-level course or multi-term sequence (e.g., a transfer-level course stretched over two terms or a pre-transfer-level course as a prerequisite to a transfer-level course) or in any standalone course effectively prior to the transfer-level course (e.g., an optional brush up or refresher course that may or may not be at the transfer level).

**Column 7 - % of Students Assessed/Placed into Pre-Transfer-Level Course or Multi-Term Sequence:** Divides Column 6 by Column 1.

**Column 6 - Number of Students Enrolled into Pre-Transfer-Level Course or Multi-Term Sequence:** This column shows the number of distinct students out of the total enrolled (Column 1) in the academic year who were enrolled in a pre-transfer-level course or multi-term sequence (e.g., a transfer-level course stretched over two terms or a pre-transfer-level course as a prerequisite to a transfer-level course) or in any standalone course effectively prior to the transfer-level course (e.g., an optional brush up or refresher course that may or may not be at the transfer level).

**Column 7 - % of Students Enrolled into Pre-Transfer-Level Course or Multi-Term Sequence:** Divides Column 6 by Column 1.

---

### Rows Explained

---

**Racial/Ethnic Groups:** The template requests that colleges report ethnic groups based on MIS reporting categories (<https://webdata.cccco.edu/ded/sb/sb05.pdf>); however, colleges can use discretion in rolling up groups into categories that are most appropriate to the population they serve. For example, if the college has a very small population of Filipino students, they may combine this group with the Asian category. Further, if a college enrolls a large proportion of students from Africa who may not identify as African-American, they may use discretion in reporting the students in the African-American category, Multi-Ethnicity, Unknown category, or other appropriate category.
